

Can Dance Studio

September Newsletter

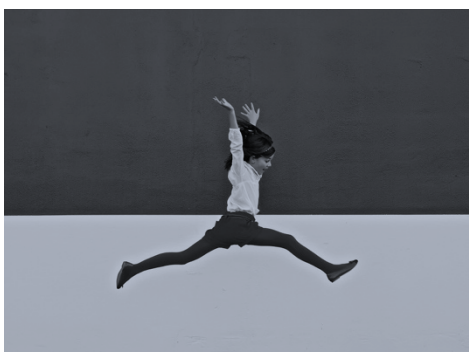

Covid Procedures

Please remember that here at Can Dance Studio we respect the rights of all our customers yet the health and safety of the dancers and the rules set out by the Fraser Health Regulatory Board for Can Dance to stay open will always come first.

Can Dance studio will remain diligent in cleaning in between all dance classes in order to protect each cohort. We understand masks will **not** be required for physical activities at this time so will not be requiring masks while dancing. Please come to class with one in case we need to get physically close to each other where distancing is not possible. If needed, we will supply them at the studio as well. Anyone wishing to wear a mask while in the studio will be allowed at any time. We understand vaccination passports will **not** be required to participate in educational afterschool performing arts activities, so will **not** be requiring them to dance at Can Dance Studio.

The waiting areas will remain closed until we can get better control of the virus as the rooms are small and parents cannot distance well. Any parent with a child with medical needs will be allowed in the waiting area while the child dances. Any child who has a waiting time in between classes is allowed to use the waiting areas for studies, eating or waiting.

If you are sick but do not have covid (negative result... allergies or sniffles) and come to class please wear a mask at all times in the studio. If you or anyone in your family have tested positive please stay home for the quarantine period set out for you by Fraser Health.

If today isn't the day to start something new when is it?

Don't let fear stop you from doing what you love.

Come try a free class!!

Have you always wanted to try tap but were not sure if you liked it? Did you hear that a new teacher will be doing Jazz this year and want to check it out? Did you think you were too old to start dancing? Come try a class!

First Ave or Railway ave? Where do I enter?

The first week of classes we will determine due to enrollment which studio best suits your class. In general acro, musical theatre, jazz, lyrical, and contemporary are in the first ave studio. Ballet, Tap and hiphop in the Railway studio. In your first week feel free to enter from either until we sort it all out.
